[MediaInfo 20.09](#)

The screenshot displays the MediaInfo 20.09 application interface. At the top, a file explorer window shows a list of files:

Name	Ext	Title	Duration	All audio as string
luke-stott-hardline	mp3	Hardline	00:04:52	CBR@320 kbps, 44100 Hz, Joint stereo
tubebackr-we-feel	mp3	We Feel	00:03:49	CBR@320 kbps, 44100 Hz, Joint stereo
twisterium-angels-rock	mp3	Angel's Rock	00:02:10	CBR@320 kbps, 44100 Hz, Joint stereo

The main window shows the details for 'tubebackr-we-feel.mp3'. It features a cover image and two panes: 'General' and 'Audio'. The 'General' pane includes fields like Complete name, Format, Internet media type, Codec, File size, Duration, Overall bit rate mode, Stream size, Title, Track name, Performer, Writing library, Cover type, and Cover MIME. The 'Audio' pane includes Format, Format version, Format profile, Format settings, Internet media type, and Codec. A context menu is open over the cover image, showing options like 'Copy data', 'Copy all', 'View mode', and 'Raw info'.
